

Available pediatric rheumatology jobs in North America.

Arizona

Paul Stillwell MD, Physician in Chief
email:

pstillwell@phoenixchildrens.com

or Paul Platzman, PCMG Practice
Administrator

pplatzman@phoenixchildrens.com

Phoenix Children's Hospital (PCH) is recruiting a Pediatric Rheumatologist. This is a unique opportunity to initiate and develop a Rheumatology division within Phoenix Children's Medical Group (PCMG). Arizona is one of 11 states that does not currently have a Pediatric Rheumatologist.

The position is expected to be predominantly clinical patient care although the successful candidate is expected to teach Pediatric Residents in our training program and medical students from the University of Arizona. Research opportunity exists but is not mandatory. Collegiality, intellectual stimulation and cross-coverage will be in conjunction with the Arizona Arthritis and Rheumatology Associates (AARA).

Phoenix is now the fifth largest city in the US and continues to grow rapidly. PCH is the only free-standing children's hospital in Arizona; we opened our new 300 bed facility in 2002. PCMG employs approximately 70 physicians and 20 PNP's. We have strong relationships with other Pediatric Specialty and Surgical groups in private practice on our campus. The categorical Pediatric Residency has just expanded to 21 interns per year and we provide education to the Med-Peds Residency at Banner Good Samaritan (6 residents per year). Academic appointment is available through the University of Arizona. There is strong support for Pediatric Rheumatology from the Arizona Arthritis Foundation in addition to PCH and AARA.

PCH is an equal opportunity employer. Compensation is commensurate with training and experience with a competitive benefits package. Candidates must have or be eligible for medical licensure in the state of Arizona and be board eligible or certified in Pediatric Rheumatology. Welcome to Phoenix!

California

Andreas Reiff, MD
Associate Professor of Pediatrics
Chief, Pediatric Rheumatology
Keck School of Medicine
University of Southern California
Childrens Hospital Los Angeles

We are also expanding our section and have one pediatric rheumatology positions open in Los Angeles. The person we are looking for will have a shared position at CHLA but will mainly be responsible for one of our big satellite clinics in Long Beach and can work independently. However the candidate will be a full faculty member at USC. If you are interested or know someone who might be, please contact me off the bulletin board at reiff@hsc.usc.edu or on my direct line 213 209 1235

email: hpsplacement@aol.com

We are seeking a Junior Pediatric Rheumatologist to join the Rheumatology Division of a multi specialty pediatric medical group. There are currently 2 Rheumatologists in the Division. With the addition of another Rheumatologist we plan to resume our fellowship training program. The practice is located in Southern California and is based at the Children's Hospital of Orange County (CHOC). The Pediatric Subspecialty Faculty (PSF) is a lucrative private practice serving Orange County. There are currently 90 physicians in the practice and it is the preeminent pediatric practice in the area. The PSF has been in practice for more than 25 years and continues to grow. The group offers a competitive compensation package and benefits. We feel that CHOC, the PSF, and Southern California are worth serious consideration.

If you or anyone you know are interested please contact me for further information.

Dowain A. Wright, MD, PhD
Medical Director, Division of
Rheumatology & Immunology
Children's Hospital Central California
9300 Valley Children's Place
Madera, CA 93638
Phone: 559-353-5011
Fax: 559-353-7214

Children's Hospital Central California seeks a Pediatric Rheumatologist (board certified/eligible) to join its well-established division of Rheumatology and Immunology. In this position you will join a board certified colleague and participate in a shared call arrangement. This practice offers a full range of Pediatric Rheumatology and Immunology

e-mail:
dwright@childrenscentralcal.org
www.childrenscentralcal.org

services. The group is a member of CARRA and PRCSG and clinical research is encouraged. Opportunities to teach include an excellent Pediatric Residency training program and rotations from Family Practice Residency and students from the UC San Francisco School of Medicine. Associate clinical appointment at UCSF is included.

With a service area encompassing 45,000 square miles, you will enjoy a busy private practice with a broad spectrum of Pediatric Rheumatologic diagnoses.

This beautiful 255-bed facility is the 13th largest free standing children's hospital in the country and occupies a 50 acre campus on the bluffs of the San Joaquin River just north of Fresno. In addition to the main hospital, the campus also contains medical and professional buildings, a child development center, a heliport, and sits next to the Ronald McDonald House. Children's Hospital Central California boasts a medical staff of 500 doctors practicing in over 40 pediatric subspecialties. This impressive facility offers a 65-bed NICU and a 28-bed PICU.

The city of Fresno is located in the central San Joaquin Valley of California. With a population of 760,000, Fresno represents an emerging metropolitan center that abounds with fine regional and ethnic restaurants, as well as a vibrant nightlife. Its symphony, local theater companies, music, and dance productions distinguish Fresno as a city with access to a wide variety of cultural events. The Fresno Metropolitan Museum, Fresno Art Museum and other cultural organizations preserve the area's rich history and serve at the forefront for future activities. Fresno is the only city in the United States with three national parks in its backyard: Kings Canyon, Sequoia and Yosemite! Also, Fresno provides comfortable day trips to San Francisco, the California Coast and the Los Angeles area.

Florida

e-mail: rivaschacon@pol.net

Miami Children's Hospital Division of Rheumatology is recruiting a pediatric or adult/pediatric Rheumatologist. We see approximately about 100 patients per week and participate in collaborative clinical studies and clinical trials. This is a position in a private growing practice, although there is an affiliation with the University of Miami. Highly competitive salary.

Melissa E. Elder, MD, PhD
Associate Professor and Chief
Division of Immunology,
Rheumatology, and Infectious
Diseases
Department of Pediatrics
University of Florida
Phone: 352/392-2961
e-mail: elderme@peds.ufl.edu

The Department of Pediatrics/Division of Pediatric Immunology, Rheumatology, and Infectious Diseases at the University of Florida in Gainesville would like to recruit a second pediatric rheumatologist (board-certified/eligible) at either the Assistant or Associate Professor level. The Division is responsible for the clinical care of children and adolescents with rheumatic diseases throughout Florida and South Georgia. There are many opportunities for collaborative research, and individuals interested in patient care, teaching, and clinical or translational investigation are strongly encouraged to apply. The University of Florida is an equal opportunity, affirmative action employer. Women and minority candidates are strongly encouraged to apply.

Georgia

Georgia Emory University
Please direct C.V.s and inquiries:
Larry Vogler, MD
Director, Division of Rheumatology
and Immunology
2015 Uppergate Dr.
Atlanta, GA 30322

Fax: 404/727-3757

The Division of Rheumatology and Immunology in the Department of Pediatrics at Emory University is seeking an MD, PhD, or MD, PhD at the Assistant or Associate Professor level to engage in research involving basic mechanisms in the pathogenesis of Systemic Lupus Erythematosus. This position is designed to promote studies in collaboration with other immunologists in our institution. It will provide an opportunity to mentor adult and pediatric

e-mail:
larry_vogler@oz.ped.emory.edu

fellows in training, and will foster the development of innovative independent investigation. Emory University has very active immunological research programs in the areas of human autoimmune diseases, aging, transplantation and vaccine development. The Emory University campus is adjacent to the Center for Disease Control and Prevention, which provides an additional rich resource for collaboration in immunological research. The Department of Pediatrics moved into a new building on campus in September 2004 that includes bright, state-of-the-art laboratory and clinic facilities. Atlanta is an inviting and thriving metropolitan city with a growing population of children and adolescents. The city has three children's hospitals: Children's Healthcare of Atlanta-Egleston, Children's Healthcare of Atlanta-Scottish Rite, and Hughes Spalding Children's Hospital, all served in part by our clinical faculty. Emory and the Department of Pediatrics are expanding its research initiatives. This position provides an excellent opportunity for an energetic young faculty member to join us at an exciting phase of academic growth.

Illinois

Marisa Klein-Gitelman, MD
2300 Children's Plaza, #50
Chicago, IL 60614

e-mail:[klein-
gitelman@northwestern.edu](mailto:klein-gitelman@northwestern.edu)

The Children's Memorial Hospital, Feinberg School of Medicine, Northwestern University, Division of Immunology/Rheumatology is recruiting a full time BC/BE Pediatric Rheumatologist at the level of Instructor or Assistant Professor. The position involves outpatient and inpatient care of a broad and challenging spectrum of pediatric rheumatic and immunologic disorders. Active engagement in education of medical students, residents and subspecialty residents is expected as well as participation in clinical research or collaboration with appropriate ongoing research programs. There are a wide variety of research programs available in Chicago from basic sciences to clinical sciences, public health or

rehabilitative medicine. The Division of Immunology/Rheumatology has four faculty members, a fully accredited fellowship program, an associated diagnostic immunology laboratory, and a busy clinical service with an excellent multidisciplinary support team including team members from the Rehabilitation Institute of Chicago. We offer a job with a competitive salary with excellent benefits and a relocation package in a dynamic and exciting city.

We are looking forward to the completion of a new state of the art free-standing pediatric hospital in the near future.

Northwestern University is an Affirmative Action/Equal Opportunity Employer. Women and minority groups are encouraged to apply.

Kentucky

Richard Mier, MD
Director of Pediatric Services
Shriners Hospital
1900 Richmond Road
Lexington, KY 40502
Phone: 859/268-5629
Fax: 859/268-5636
e-mail: rmier@shrinenet.org

The Department of Pediatrics of the University of Kentucky and Shriners Hospital for Children (Lexington) are recruiting a pediatric rheumatologist available 7/1/05 or 7/1/06. Responsibilities include the outpatient and inpatient care of children with rheumatologic disease and the education of students and residents in musculoskeletal disease. The position includes a supportive platform for clinical or basic science research. The opportunity to obtain an MPH at the College of Public Health of the University of Kentucky is also available.

The University of Kentucky Department of Pediatrics is a thriving and newly-energized Department with a new pediatric chairman. The new dean of the medical school is a pediatrician and actively supportive of the Department. Shriners Hospital provides services without charge for children with musculoskeletal diseases and attracts patients from a catchment area of 6 states. It's a great place to practice and do clinical or epidemiologic research.

Lexington is a lovely and progressive small city of 300,000 people, 80 minutes by car from Cincinnati, with clean air, good schools and an active arts community.

Remuneration is competitive and will be commensurate with the candidate's experience.

Louisiana

Seth Mark Berney, MD
Associate Professor of Medicine
Interim Chief, Section of
Rheumatology
Interim Director, Center of Excellence
for Arthritis and Rheumatology
Director-Student Clerkships in Internal
Medicine
Director-Rheumatology Fellowship
Program
Louisiana State University Health
Sciences Center School of Medicine
in Shreveport
1501 Kings Highway
Shreveport, LA 71130
Phone: 318/675-5935
Fax: 318/675-4159

The Louisiana State University Health Sciences Center School of Medicine in Shreveport is recruiting a Pediatric Rheumatologist as either a clinician educator or researcher at the level commensurate with experience. The candidate must be board eligible or board certified in pediatric Rheumatology. Active involvement in education of medical student, resident, and subspecialty resident level is expected. The individual would become a full member of the Center of Excellence for Arthritis and Rheumatology- the only state established and supported Rheumatology Center of Excellence in existence. The Louisiana State University Health Sciences Center School of Medicine in Shreveport is the major tertiary referral center for the northern 1/2 of the state of Louisiana with a wide range of challenging rheumatologic pathology. The Louisiana State University Health Sciences Center School of Medicine in Shreveport is an Affirmative Action/Equal Opportunity Employer.

Minnesota

Richard K. Vehe, MD
Director, Division of Pediatric
Rheumatology, Department of
Pediatrics
University of Minnesota
Director, Pediatric Rheumatology
Program, Gillette Children's Specialty
Healthcare
Phone: 612/626-4873
e-mail: vehex001@umn.edu

The University of Minnesota, Department of Pediatrics, seeks a faculty member in Pediatric Rheumatology. The successful candidate will have a discovery-based research program with specific focus on molecular immunology of T and B cell development, autoimmunity, and/or immune tolerance. Responsibilities will include clinical care, teaching, and development of an NIH funded research program. Contingent on professional accomplishment, the candidate will be appointed as an Assistant (tenure-track) or Associate (with tenure) Professor in the

University of Minnesota Medical school.

Missouri

Andrew Lasky, MD
Chief, Rheumatology
Children's Mercy Hospitals & Clinics
2401 Gillham Road
Kansas City, MI 64108
Phone: 866/512-2168 Ext 3686
Fax: 816/234-3082
e-mail: alasky@cmh.edu

Children's Mercy Hospitals and Clinics is seeking a full-time fellowship-trained pediatric rheumatologist to join our team of professionals committed to providing excellent clinical care in a supportive environment. Our current staff includes a board certified pediatric rheumatologist, a pediatrician specializing in rheumatology, skilled pediatric nurses, a full-time dedicated social worker, and occupational and physical therapists. The person accepting this position will be responsible for an active clinical practice as well as teaching. They will also have an opportunity to participate in clinical research. Academic appointments are available through the University of Missouri - Kansas City where we are the primary teaching site for a large pediatric residency program. We offer an extremely competitive salary and excellent benefits (including malpractice coverage) and a very generous relocation package.

Children's Mercy Hospitals & Clinics is a 275-bed hospital that is nationally recognized for its innovative, child-friendly environment. We are a Level I Pediatric Trauma Center, and the only freestanding children's hospital between St. Louis and Denver. We also have a satellite hospital in suburban Overland Park, Kansas; a pediatric home health agency; and numerous outreach locations. All medical and surgical subspecialties are represented. The hospital has over 11,400 inpatient admissions and 300,000 outpatient visits per year. (Inpatient admissions have increased by 68% and outpatient visits have increased 73% over the past five years.) We have an educational affiliation with the University of Missouri-Kansas City Medical School. We have a residency program with over 60 residents and fellowship programs in Allergy, Critical Care, Developmental & Behavioral Sciences, Emergency Medicine, Endocrinology,

Hematology/Oncology, Infectious Disease, Neonatology, Nephrology, Surgery and Toxicology/Pharmacology. We also have a rapidly growing research program with a \$50 million research endowment and a current facility expansion plan that exceeds \$125 million. We are fiscally sound and maintain a broad base of support across the Midwest.

Kansas City is located within 250 miles of both the geographic and population centers of the nation, in the heart of America, on the state line of Missouri and Kansas. The city will charm you with its big-hearted graciousness and hospitality. Kansas City has small-town friendliness but big-city dining, a variety of entertainment options, incredible jazz, professional sports, world-renowned museums, great shopping and more fountains than any city in the world besides Rome. The city is a metropolitan area of more than a million and a half people, and has one of the lowest costs of living of all major U.S. cities. Visit our website at <http://www.childrens-mercy.org>

area. The position would be primarily located in the Buffalo area, and the interested person would not be required to go to Erie, but would have clinics in the city and 2 of the suburbs.

Assistant/Associate Professor level position
Division of Pediatric Rheumatology Hospital for
Special Surgery, Sanford Weill Cornell
University Medical College. We are seeking a
strong basic science or clinical investigator to
work in an exciting environment as the third
pediatric rheumatologist working in conjunction
with more than 20 active adult basic science
rheumatic disease investigators in a major
urban rheumatology center. This is a
challenging opportunity for the right individual to
work with collaborators from Memorial Sloan
Kettering Cancer Center/The Rockefeller
University/Cornell Medical College in one of the
strongest immunology centers in the world.

We are pleased to announce the expansion of
the Division of Pediatric Rheumatology at
Columbia University, Babies Hospital. We are
now recruiting for a full-time faculty position at
the Assistant Associate Professor level. Our
program is the first established in the NY
Metropolitan region and combines research with
a large diverse clinical program.

The Children's Hospital of New York has
undergone an expansion with a large new
building. It is consistently ranked in the top 10
children's hospitals in the U.S.

The position being offered combines patient
care, teaching and clinical research joining
three pediatric rheumatologists, a nurse
clinician and 2 pediatric rheumatology fellows.

We actively collaborate with basic science
projects and faculty throughout the university.
The campus offers excellent care programs for
clinical research and we designated an NIH

center of excellent to promote clinical studies in autoimmune disease. There is plenty of opportunity to collaborate with the Mailman School of Public Health, the Schools of Nursing and Physical Therapy, which are all on the Health Science campus. Benefits include dependent primary and college tuition plans. Please feel free to contact me if you would like more information about this opportunity.

North Carolina

Egla Rabinovich, MD, MPH
Duke University Medical Center
Box 3212 DUMC
Durham, NC 27710
Phone: 919/684-6575 Ext. 2
Fax: 919/684-6575
e-mail: rabin001@mc.duke.edu

Duke University Medical Center is seeking an academic full-time pediatric rheumatologist to join 2 full-time pediatric rheumatologists, a nurse clinician and a thriving fellowship program. Assistant or Associate Professor level is desired, board eligible or board certified in pediatric rheumatology with a focus on clinical care and research. Appointment and salary will be at a level with the applicant's experience. The Triangle has been consistently rated as a desirable place to live, located between the mountains and ocean. Breakdown of time is negotiable. DUMC is an Equal Opportunity employer and women and minorities are strongly encouraged to apply.

Pennsylvania

Terri H. Finkel, MD, PhD
Joseph L. Hollander Associate
Professor of Pediatrics
University of Pennsylvania
The Children's Hospital of
Philadelphia
11 North, Abramson Research Center
34th & Civic Center Blvd
Philadelphia, PA 19104-4318
Phone: 215/590-7180
e-mail: finkelt@email.chop.edu

The Department of Pediatrics/Division of Rheumatology at the University of Pennsylvania's School of Medicine and the Children's Hospital of Philadelphia seeks candidates for several Assistant, Associate and/or Full Professor positions in the non-tenure research track, the non-tenure clinician-educator track, or the tenure track. Track and rank will be commensurate with experience. Applicants must have an MD and/or PhD degree and have demonstrated excellent qualifications in education, research and clinical care.

The Division of Rheumatology at the Children's Hospital of Philadelphia is comprised of an

integrated clinical, research and administrative staff of 40, including 6 pediatric rheumatologists and a strong support staff in nursing, clinical research and social work. Our ACGME-accredited fellowship program now has 6 fellows, with 2 hospital-supported clinical slots and 4 NIH training grant-supported research slots per year.

Physicians and scientists on campus have made seminal contributions to immunobiology and rheumatology. At present, there are approximately 80 faculty members in the Penn Immunology Graduate Group, encompassing a broad spectrum of research studies. Research results are being utilized in both experimental models and in NIH-funded clinical trials. We have also built close working relationships with the Division of Rheumatology in the Department of Medicine and with the Penn Center for Epidemiology & Biostatistics, providing opportunities for mentoring, collaboration, and funding in clinical research. From our #1 national ranking by both U.S. News & World Report and Child magazines to our recent rating as one of the "Best Places to Work in PA", Children's Hospital is viewed as an institution at the forefront of advancing pediatric healthcare worldwide.

We invite dynamic and talented pediatric rheumatologists, whether senior or just out of training, with clinical or research expertise to join us. The University of Pennsylvania is an equal opportunity, affirmative action employer. Women and minority candidates are strongly encouraged to apply. Please submit curriculum vitae, letter of interest, and three reference letters.

Donald P. Goldsmith, MD
Professor of Pediatrics
Drexel University College of Medicine
Director, Section of Rheumatology

The Rheumatology Section of the Department of Pediatrics of Drexel University College of Medicine at St. Christopher's Hospital for Children is seeking an additional faculty

St. Christopher's Hospital for Children
Philadelphia, PA 19134
Phone: 215/427-5051
Fax: 215/427-6693
e-mail:
donald.p.goldsmith@drexel.edu

member at the Assistant or Associate Professor level. The BC/BE candidate should have a commitment to clinical care, scholarly activity, and teaching. Up to 40% of protected time is available for clinical research. St. Christopher's Hospital for Children is a free standing tertiary care 183 bed hospital with more than 120 fulltime pediatric faculty and 90 pediatric residents and subspecialty fellows. This position is just right for an academically directed individual wishing to divide his/her time between patient care, teaching, and clinical research.

Children's Hospital of Pittsburgh
Raphael Hirsch, MD
Chief, Division of Rheumatology
3705 Fifth Avenue
Pittsburgh, PA 15213
Phone: 412/692-5970
Fax: 412/692-5054
e-mail: raphael.hirsch@chp.edu

The Children's Hospital of Pittsburgh, in collaboration with the University of Pittsburgh School of Medicine, seeks three MD or PhD research faculty to join its Division of Pediatric Rheumatology. The division currently has six pediatric rheumatologists (three clinic based and three research based) and a fully staffed clinic.

Research faculty will be responsible for developing investigative programs in the rheumatic diseases (both clinical and lab-based), generating peer-reviewed publications and external funding, and providing training opportunities for students and fellows. These positions are at the assistant, associate, or full professor level, depending on experience.

Children's Hospital of Pittsburgh is one of the nation's top pediatric care and research institutions and the only hospital in western Pennsylvania devoted solely to the care of infants, children and young adults. Children's Hospital is also the only accredited Level 1 Regional Resource Pediatric Trauma Center in western Pennsylvania and one of only two in the state. Children's Hospital has been named consistently to several elite lists of pediatric health care facilities, including ranking in the top ten children's hospitals in the country by *US News and World Report* and ranking sixth in funding provided by the National Institutes of Health. The Hospital is undergoing a major

expansion, including construction of a new hospital and a new research building.

Children's Hospital's medical and research staff comprise the Department of Pediatrics at the University of Pittsburgh School of Medicine, one of the top biomedical research institutions in the nation, ranking eighth in NIH funding last year. Academic rank at the University of Pittsburgh School of Medicine will be determined by candidate's credentials and experience.

Texas

W. Barry Humeniuk, MD, FRCS (C),
PA
Medical Center of Plano
4001 W 15th St
Suite 200
Plano, TX 75093
Phone: 972/931-5437
Fax: 469/467-0194

Private practice Rheumatology position, preferably recent graduate, with established pediatric orthopedic surgeon in Plano, Texas. Plano is a suburb of Dallas with a population of 400K and an average age of 31 years. The nearest, and only, pediatric rheumatologist is in Dallas and serves both the Dallas and Fort-Worth cities. The next nearest pediatric rheumatologists are in Oklahoma City and Houston, both are more than two hours away. As a result, this one rheumatologist in Dallas has over a six month waiting list. The practice is in a well-established hospital that specializes in high quality medical care, with the largest private practice neonatal intensive care unit in the area. The hospital has a significant pediatric staff (over 40), and all pediatric sub-specialists. A significant demand for pediatric rheumatology exists in this area and at the hospital. The hospital and community are making a very good offer for the qualified applicant.

My own practice includes the entire spectrum of pediatric orthopedics, including trauma, all types of fractures, bone tumors (malignant and benign), soft tissue injuries, scoliosis, and hip dysplasia. A significant demand for pediatric rheumatology exists in the area and at the hospital. A large part of my practice is seeing and evaluating children with arthritic symptoms and taking care of them while waiting on the one rheumatologist to see them. There is such

a demand for pediatric rheumatology that the hospital and community are making a very good offer for the qualified applicant.

Lynn Punaro, MD, Section Chief
UTSouthwestern Medical Center
Children's Medical Center of Dallas
and Texas Scottish Rite Hospital
Phone: 214/559-7848
e-mail: Marilynn.Punaro@tsrh.org

The Pediatric Rheumatology Section at UTSouthwestern Medical Center, Children's Medical Center of Dallas and Texas Scottish Rite Hospital has a position for a BC/BE pediatric rheumatologist at the Assistant or Associate Professor level. This position is 80% basic research (protected time). Research mentoring is available. Salary negotiable. Please call.

e-mail: cbwillia@mail.mcw.edu

The pediatric rheumatology section in the Department of Pediatrics at the Medical College of Wisconsin and the Children's Hospital of Wisconsin is seeking a fifth faculty member. In addition to four pediatric rheumatologists, the section has 1 clinical RN, 1 research RN and 1 pediatric rheumatology nurse practitioner. There are well-established collaborations with other allied professionals. The BC/BE candidate should be at the Assistant or Associate Professor level, have investigative experience in either basic immunology or clinical rheumatology, and have a strong commitment to scholarly productivity. This position offers a generous start-up package, multiple opportunities for collaboration and the chance to educate fellows in an accredited pediatric rheumatology fellowship program. It is well suited for an academically oriented candidate

Canada

The Stollery Children's
Hospital/University of Alberta
Contact: Janet Ellsworth, MD
e-mail:janet.ellsworth@ualberta.ca

who requires protected time. Located in suburban Milwaukee, the Children's Hospital of Wisconsin is a 222-bed, tertiary freestanding children's hospital with 235 faculty, and 150,084 outpatient specialty clinic visits in 2004. The Children's Hospital of Wisconsin shares an outstanding campus with the Medical College of Wisconsin, the Milwaukee Regional Medical Center and the Blood Research Institute of Southeast Wisconsin.

The Divisions of Allergy/Immunology/Rheumatology at the University of Wisconsin is recruiting a board certified/board eligible Pediatric Rheumatologist at the Assistant Professor level. Responsibilities include teaching and attending on the Pediatric Rheumatology in patient service. An interest in either basic or clinical research is desirable. Madison, the state capital, is a wonderful city with a world-class university and a ranking of #1 in "livability" by Money Magazine in both 1996 and 1998.

The Stollery Children's Hospital/University of Alberta seeks a second pediatric rheumatologist at the assistant or associate professor level. This full time position would include clinical care, clinical research and teaching responsibilities. The position is fully funded within the Department of Pediatrics Alternate Funding Program.
